

****LANA VAYNER****

Web Designer | AI-Enabled Web & UX Design

📍 **Ontario, Canada** | 🌐 Portfolio: <https://github.com/lanavayn> |

✉ Email: lanazvorygin@gmail.com | 📞 Phone: (647) 542-8687

📁 SUMMARY

Creative and detail-oriented Web Designer with a strong background in business analysis and Java development. Recently completed Google AI Essentials, with practical experience applying AI tools to support design, content, and workflow efficiency. Skilled in HTML/CSS, responsive design, and building clean, accessible, user-focused websites that meet real client needs. Experienced in both independent and collaborative project work.

💻 WEB DESIGN PROJECTS

****🌐 Lina Tax Friendly****

<https://lina-tax-friendly.netlify.app/>

Developed a responsive website for a financial advisor under the brand "Tax Friendly." Features include a detailed service overview, testimonial slider, anti-spam protected contact form, and professional branding with client imagery. Styled with CSS and JavaScript for a trustworthy appearance.

****🌐 Sofia's Dog Sitting****

<https://sofia-dog-sitting-2025.netlify.app/>

Created a warm, client-friendly website for a local dog sitter specializing in small dogs. The site includes a playful photo gallery, embedded Google Maps, responsive mobile design, and a clean, inviting layout. A built-in feedback form using Netlify Forms allows pet owners to easily submit testimonials, which are manually curated and published to showcase client satisfaction.

****🌐 Bible Verses & Interpretations****

<https://bibleforall.ca/>

Designed and developed a bilingual (Russian & English) Bible education website featuring the Ten Commandments, life purpose content, and selected verses. Implemented popup interpretations, responsive layout, and a language dropdown switch. Deployed with a custom domain and integrated Google Analytics for visitor insights. Built using HTML, CSS, and JavaScript, and hosted on Netlify.

****🌐 Personal Portfolio Page****

<https://github.com/lanavayn>

One-page site introducing my web projects, background, and professional goals. Includes profile image, responsive layout, and project links.

📊 Data & Analytical Skills

- ****Power BI****: Building interactive dashboards, KPIs, filters, slicers, and basic DAX to support business insights and reporting needs
- ****Power Automate****: Introductory experience creating simple workflows for report delivery and process support
- ****SQL****: Writing queries to retrieve, filter, and combine data from multiple sources
- ****Excel****: Data cleaning, formulas, and pivot tables for analysis and reporting

📁 Previous Experience

****Senior Business Analyst – DXC Technology / CIBC****

Toronto, ON | Full time| 2010–2024

- Led requirements gathering and analysis for enterprise applications
- Worked closely with QA and Dev teams; created documentation and diagrams
- Legacy Java development background in earlier roles

****Deputy Returning Officer** – Elections Ontario and Canada (February/April, 2025)**

- Managed ballots and voter lists with attention to detail and fairness

🎓 Education & Certifications

- B.Sc. in Computer Science (Ukraine)
- Google AI Essentials — Google (2025)
